

### **St. Croix Scheduled Electrical Service Interruption for Feeder 10B Customers**

ST. CROIX, U.S. VIRGIN ISLANDS – September 6, 2024 – The Virgin Islands Water & Power Authority is notifying customers on the island of St. Croix that there will be a scheduled electrical service interruption occurring tomorrow, Saturday, September 7, 2024, from 6:00 a.m. to 1:00 p.m. impacting approximately 250 customers on Feeder 10B. The purpose of the interruption is to safely relocate an electrical pole by the Calquohoun Bridge.

We apologize for any inconvenience this may cause and appreciate your patience as we complete this important work.

Together we are building a stronger, more reliable future.

###

**About WAPA:** The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
