April 11, 2023

**Authority Schedules Electrical Outage on April 13, 2023, Affecting Portion of Feeder 10B-7A**

U.S. VIRGIN ISLANDS – The Virgin Islands Water and Power Authority (“WAPA” or “Authority”) would like to advise the public that on the island of St. Croix there will be a scheduled electrical interruption this Thursday, April 13, 2023, from 8:30 AM – 4:00 PM, affecting a portion of Feeder 10B-7A in the Coble neighborhood. Approximately 25-30 customers will be affected by this outage. The purpose of the outage is to replace primary and neutral conductors in the area.

The Authority thanks the community for its patience.

###

**About WAPA:** The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
