Scheduled Electrical Service Interruption on St. Croix June 2, 2023

U.S. VIRGIN ISLANDS – The Virgin Islands Water and Power Authority (“WAPA or “Authority”) would like to inform the public of a scheduled electrical service interruption on the island of St. Croix, as contractors work to replace primary and neutral conductors in the Calquohoun area.

Feeder 10B-7A will lose service on Friday, June 2, 2023 from 8:30 AM – 4:00 PM. The outage will affect 30 customers.

The Authority thanks the public for its cooperation.

###

About WAPA: The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
