

**VIRGIN ISLANDS WATER & POWER  
AUTHORITY**

**PR-14-22**

**PR-14-22 Advanced Metering Infrastructure  
Assessment Project**

**Z2S RFI #2**

1. The documentation provided for financial strength is not sufficient. Please provide sufficient financial stability & creditworthiness information such as a yearly loss and profit summary or a credit history report.
2. An engineering analysis of failing devices including meters, communication modules, and collectors is included in the scope of work under the complete system assessment. Were the shipment of the meters, communication modules, and collectors included in the Bid cost provided?
3. Does Burns and McDonnell have experience analyzing, troubleshooting, and/or repairing AMI systems that were in a similar functioning state ( failing meters, collectors, etc. ) as the Virgin Islands Water and Power Authority's AMI System?
4. Does ZS2 have experience working with Tantalus?
