RFQ-02-24

REQUEST FOR IMPLEMENTATION OF FLAME RESISTANT CLOTHING PROCUREMENT

Date:09/12/2023

ADDENDUM I

Questions and Answers

Q: We have reviewed the attached documentation but have not seen a listing or specifications for the FR clothing for which you require pricing.

A: Page 11 of the RFQ lists the minimum product showcase requirements (copied below). This program is intended to offer options that allow employees to use Authority provided allotment for purchase of FR clothing that fits their style and comfort while ensuring employee protection. The selected supplier will partner with Authority personnel to develop an Authority specific FR clothing catalog. Key elements of garment selection are: NFPA 2112 & minimum Cat. 2 rated, comfort (lightweight, breathable), durability, style, price, and confidence in product availability.

Product Showcase and Cost Evaluation:

The supplier must provide a comprehensive product showcase for Flame Resistant Clothing. Specifically, they should present a minimum of three different models of long sleeve Flame Resistant shirts, a minimum of three models of Flame Resistant pants, and a coveralls model. All presented clothing should be dual rated, NFPA 2112 flash fire and CAT 2 or higher. All presented clothing should be of lightweight design that would function well and maintain employee comfort in tropical environment. The showcase must include detailed product specifications, certifications, and transparent pricing for each item.
