**Subject: PR-21-2REQUEST FOR PROPOSAL FOR DEMOLITION AND FIREWATER
PUMP HOUSE CONSTRUCTION AT RANDOLPH HARLEY POWER PLANT**

Dear Ms. Donovan:

Clarification II Component 2- Demolition of Tank No. 1 Scope of Work Section 5.

1. On-Site Environmental, Inc. (OSE) is aware that is OSE's responsibility for obtaining permits and certifications for waste disposal; (2) aware of the requirements/criteria of the permits and certifications for accepting waste and waste disposal; (3) aware that the majority of the waste has to be taken off island with the exception of some items being permitted, certified and accepted by the local waste agency and landfill; and (4) our pricing for component 2 is inclusive of all requirements to properly dispose of all known waste.

OSE appreciates the opportunity that you have given us to be at the service of VI WAPA in this project.

If you have any questions, please let us know at your earliest convenience.

Cordially yours,

ON-SITE ENVIRONMENTAL, INC.

Ricardo Alvarez, PE, REM
Principal
