**Scheduled Electrical Service Interruption Planned for Feeders 7A and 8B on June 18**

St. Thomas, U.S. Virgin Islands (June 15, 2026) – The Virgin Islands Water and Power Authority (“WAPA” or “the Authority”) advises customers served by Feeders 7A and 8B of a scheduled electrical service interruption on Thursday, June 18, 2026, to allow crews to complete maintenance on an electrical pole near Altona Terrace.

The planned outage will occur from 9:00 a.m. to 11:00 a.m. and will impact customers in the following areas:

- Feeder 7A – impacting approximately 3,554 customers in the areas of Subbase/Crown Bay, Altona & Welgunst to Four Corners
- Feeder 8B – impacting approximately 1,735 customers in the areas of Norre Gade, Hospital Ground, Mafolie to Peterborg

WAPA appreciates the community’s understanding and support as crews carry out this work to maintain reliable service.

###

**About WAPA:** The Virgin Islands Water and Power Authority is an autonomous agency of the Virgin Islands Government which produces and distributes electricity and drinking water to residential and commercial customers in the territory. WAPA was created by the Fifth Legislature of the Virgin Islands in 1964 through Act No. 1248. Today, WAPA generates electrical power at production plants on St. Thomas and St. Croix and distributes electrical service through smart grids to customers on St. Thomas, St. Croix, St. John, Hassel Island, and Water Island. Potable water is distributed to almost 13,000 customers through water lines and standpipes. WAPA also has the responsibility of installing and maintaining streetlights.
