

# PUBLIC NOTICE

The Department of Planning and Natural Resources announces that pursuant to Virgin Islands Rules and Regulations, Title 12, Chapter 21, Section 904-9 meetings of the St. John Committee of the Virgin Islands Coastal Zone Management Commission have been scheduled to begin on **Thursday, October 29, 2026, at 4:00 p.m.** This meeting will be held via the video conferencing platform Microsoft Teams.

## **Public Hearing for Federal Consistency Determination No. CZM0029-26- Virgin Islands Water and Power Authority- Coral Bay & Frank Bay Generator Projects**

The project is proposing to provide temporary emergency backup power generation by using two 2,500kW diesel generators in Coral Bay on Parcel 6-4 Remainder Estate Carolina, Coral Bay, Quarter on St. John.

The project proposes two 20,000-gallon UL 2085 / STI F941 double-wall aboveground diesel storage tanks (AST) plus generator skid-base tanks which will provide enough on-site usable diesel inventory to support five continuous days of full-load operation.

The Frank Bay improvement includes the installation of a new substation and a new switchgear building and two new diesel emergency backup generators with two above ground diesel fuel storage tanks. The project is located on Remainder of Enighed, Estate Contant and Enighed, Cruz Bay Quarter, St. John.

The following information should be used to participate in the meeting:
